

B.Sky 1005 user manual

Dear Customer,

CONGRATULATIONS, The Bluetooth Hands-free Car Kit, when used as described, will give you years of dependable service in your car, truck, RV or minivan. We have taken numerous measures in quality control to ensure that your product arrives in top condition, and will perform to your satisfaction.

Before You Start

SAFETY FIRST!

Completely read and understand all the instructions in this manual before using the Bluetooth Hands-Free Car Kit while (B.Sky 1005) operating a motor vehicle.

All wireless devices are susceptible to interference or may cause interference, which could affect usability.

If you are in an area where cell phone use is prohibited, or if it causes any interference which may be dangerous, switch your cell phone and Bluetooth Car Kit over to the OFF position.

When using your cell phone with this unit be sure to secure it at all times. When re-fueling always switch off your cell phone and Bluetooth Car Kit. Do not use near any fuel or chemicals.

When pairing to any other device, read and follow all instructions and safety guidelines provided by the manufacturer of the device. Do not attempt to pair with incompatible devices.

Specifications

Operation

Getting Started

Your Blue Sky Bluetooth Car Kit is equipped with the following buttons and functions as shown in the Controls section of this manual

ON/OFF Button: Turn the device on, the screen will light up and show “BLUESKY” , at the same time you will hear a start-up tone. Turn the device off to conserve battery power when not in use.

“+” Button: This button can scroll the last 10 incoming call numbers.

“-” Button: This button can scroll numbers in phone book. (Phone must have this feature)

Multi-function Button: This button performs the following functions: Answer a call, Reject a Call, End a Call, Voice Dial, Redial the last number, and Call Waiting (specific descriptions as the following operating instructions).

Microphone: The Bluetooth Car Kit is equipped with Full Duplex System Microphone. DSP Technology, Noise and Echo suppression system.

Screen: The screen supports up to 12 digits, displays both name in English and message status.

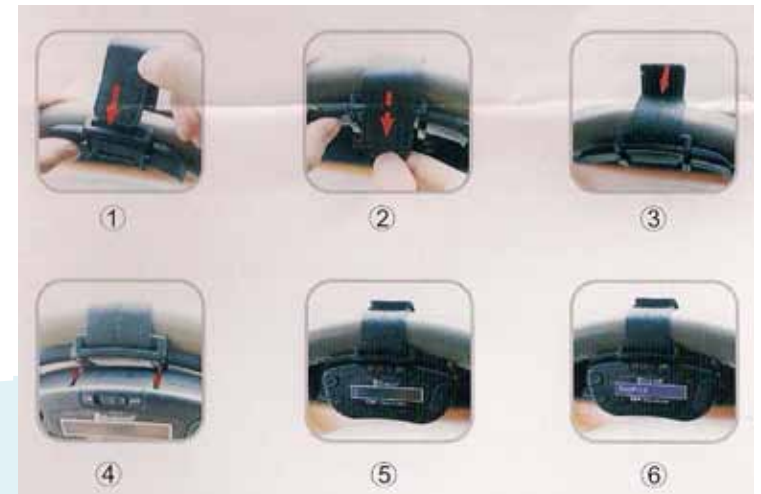

Charging the B.Sky 1005 Bluetooth Car Kit

The Bluetooth hands-free car kit is powered by a re-chargeable LI-ION battery. The rechargeable Li-ion battery can be recharged hundreds of times over the course of its usable life.

The car kit will “Beep” sound when the battery is running low and “Low Batt” on the LCM will confirm it. Please charge it with the enclosed charger.

- 1) Plug the charger to the DC 5V port
- 2) Plug the other end of the charger to the 12V car cigarette lighter
- 3) Red LED will indicate that the device is charging
- 4) Red LED off means the battery is full

Installation

Pairing Your B.Sky 1005 Bluetooth Car Kit

Prior to using your Bluetooth Car Kit for the first time you must pair it with a Bluetooth enabled cell phone. The pairing procedure is different between models of cell phones. Please refer to the user manual of your cell phone for specific details on Bluetooth connectivity.

Turn on the Bluetooth car kit, and in “Stand-by” mode.

Activate your cell phone’s Bluetooth function.

Refer to the cell phone’s user guide for instructions on Bluetooth.

- 1) Select “HF30” from the list on the cell phone Paired device
- 2) Enter the Passcode “0000” to confirm the pairing process.
- 3) Pairing is now complete, and the Blue LED will be lit while “Paired” and “Connected” will confirm it.

Note: If the cell phone’s and/or the Bluetooth Car Kit’s Battery is weak, you may lose the Bluetooth connection. Maintain the charge of the batteries to ensure good Bluetooth connectivity.

Using the B.Sky 1005 Bluetooth car kit

Answering a Call

- When there is an incoming call, you will hear the ring tone through the Bluetooth car kit speaker. The screen will show both the number and the caller’s name. Press the Multi-Function button once. “Call” will be displayed on the screen.

Ending a Call

- To end an incoming call press the Multi-Function Button once

Rejecting a Call

- To reject an incoming call press the Multi-Function Button twice quickly, the screen will show “Reject”

Voice Dialing

- (ONLY WORKS WITH CELL PHONES EQUIPPED WITH VOICE DIALING)
Before using voice dial, please ensure that your mobile phone supports this feature or that you have stored the voice label. Press Multi-function button once, speak out the label that has been stored, the call will dial.

Call Waiting

- When you are on a call and a second incoming call is confirmed by a beep sound. Press and Hold the Multi-Function Button for a 2 or 3 seconds. The screen Display shows the phone number of the incoming call. The first call will be on hold and you can talk to the second call. Press and hold the Multi-Function Button to switch between the two callers. To end one of the two calls, select the call and Press the Multi-Function Button once only.

Last Number Redial

- Press the Multi-function button twice and the Bluetooth car kit will call the last number dialed.

Volume control

- When you are on a call, press the “+” button to turn the sound up, press the “-” button to turn the sound down

Note: Volume control can only be used during a call.

Call switching between phone and car kit

While paired with your Bluetooth car kit, you can also use your Bluetooth cell phone to make and receive calls directly. If you want to switch calls between your Bluetooth car kit and the cell phone, you can press the Multi-function button about 3 seconds until the screen shows "Transfer".

Car Speaker Mode (FM)

- 1- Use the "+" button to choose Car Speaker mode. Press and hold this button for 5 seconds, the Bluetooth Car Kit will now transmit calls through a selected FM station.
- 2- Set the Car's FM receiver to the same frequency as selected on the Bluetooth car kit, the calls will now be heard over the car's speakers.
- 3- To change the FM channel being used by the Bluetooth car kit, use the "+" and "-" buttons. Or press and hold the "-" button, the Bluetooth car kit will transmit from the next preset (8 preset frequency included). Car speaker mode uses 8 preset FM frequencies which are 88.1, 88.5, 88.7, 89.3, 106.7, 107.1, 107.5, 107.9.

For best performance, select one of the preset channels that a strong local FM radio station is not broadcasting on.

The functions of access and delete of your call phone's number

- 1- To access your cell phone numbers
- 2- Select "Sent name card", and choose sending by Bluetooth
- 3- Select "HF30" in the list of devices and the phone will display sending successful.
- 4- Access successful. Saved English name will be displayed on the screen when a call is coming.

- 5- Delete some of numbers searching numbers which you want to delete in the book, press the "+" button and "-" button at the same time and you can delete the numbers that you want to delete.

Note: Press "+" button to search the last 10 incoming phone numbers, press "-" button to search about 200 numbers in phone book. The longest telephone number in the telephone directory is 14 digits.

Care And Maintenance

- Turn your Bluetooth Car Kit off when not in use to extend the battery's life.
- Do not expose your device to liquid, moisture or humidity as it is not waterproof.
- Do not use abrasive cleaners or solvents to clean the device.
- Do not expose the device to extremely high or low temperatures.
- Do not dispose the device, or its battery pack in a fire as it will result in an explosion.
- Do not disassemble the device as it does not contain serviceable components
- If you do not use the Bluetooth Car Kit for long periods, store it in a cool, dry place, free from extreme temperatures and dust or dirt.

SAFETY INFORMATION

- 1- Check local hands-free laws regarding use of a cell phone and Bluetooth Hands Free Car Kits while driving.
- 2- If you use the Bluetooth Car Kit while driving, remain focused on driving and drive in a responsible and safe manner.
- 3- The Bluetooth Car Kit is not a toy, keep away from children. Small parts may be a choking hazard.

- 4- Observe all signs that require an electrical device or RF Radio to be switched OFF in designated areas. These could include hospitals, blasting areas and potentially explosive atmospheres
- 5- Your Bluetooth Car Kit must never be mounted or installed over airbag deployment areas, as serious injury may result when an airbag deploys.

Troubleshooting

If you are unable to connect your Bluetooth Car Kit to the cell phone please check and try the following:

- 1- Ensure the Bluetooth Car Kit is switched ON.
- 2- Ensure both your Bluetooth Car Kit and cell phone have enough battery power to pair successfully.
- 3- Ensure the Bluetooth Car Kit is paired with your cell phone (please refer to your cell phone's user guide for specific instructions for pairing).
- 4- Ensure the device is within a maximum of 10 meters of the mobile phone and there is no obstructions, such as walls or other electronic devices in between.

If pairing operation fails

- 1- Delete the item from the paired list on your cell phone.
- 2- Reset both the cell phone and the Bluetooth Car Kit device by powering them off and back on.
- 3- Re-pair the two devices
- 4- Turn off the cell phone, wait 2 to 3 minutes, turn on the phone and repeat the pairing process.

Note: In some instances, this action clears up any potential bugs built up in the cell phone software that can hinder proper pairing.

If you have connected to your B.Sky 1005 Bluetooth Car Kit to the cell phone, but do not hear anything:

- Ensure the volume control is on.
- Check the radio signal strength indicator in your mobile phone, as you may be outside the service area.
- Your current location may not provide good call quality. Move to a location where radio signal strength is greater and less interference.
- Magnetized objects such as health necklaces placed near the Bluetooth Car Kit or your mobile phone may terminate the call. Keep away from such objects.

Note: Please note that it is possible that the Bluetooth Car Kit buttons might not operate according to the instructions in this user guide if your cell phone has an unusual wireless interface. In this case, please reset both the Bluetooth car kit and cell phone.

Bluetooth Car Kit is compliant with, and adopts to the Bluetooth specification 2.0. Compatibility between the Bluetooth Car Kit and other Bluetooth enabled devices is not guaranteed. Compatibility depends on the devices used. For specific information on the compatibility between the Bluetooth Car Kit with other Bluetooth enable products, please check with manufacturer

BlueSky Warranty

Blue Sky Tech Inc. products are designed and manufactured to provide a high level of trouble-free performance. Blue Sky Tech Inc. warrants, to the original purchaser, that its products are free from defects in materials and workmanship under normal consumer usage for the period of One (1) year from the date of the original purchase, as part of our commitment to product excellence.

Blue Sky Tech Inc. and/or its affiliates routinely improve the designs, materials or production methods of its existing products. Because it is impractical to publicize all changes in every product, we reserve the right to make such changes without notice.

If during the One (1) year warranty period your new product is found to be defective, Blue Sky Tehc Inc. will repair such defect or replace the product without charge for parts or labor subject to the following conditions:

1. All repairs must be performed by Blue Sky Tech Inc.
2. The equipment must not have been altered or damaged through negligence, accident or improper operation.

For all warranty claims, please contact directly your retail store and ensure you have a copy of your sales receipt.
